# HER (2013) MOVIE MAP

## Summary

The story follows Theodore Twombly, who purchases a new advanced AI. He falls in love with the artificial intelligence, who names herself "Samantha".

## Setting

Futuristic Los Angeles. The city is portrayed as having clean, sleek, and minimalist design, as well as advanced technology. In contrast to the high-tech setting, the film also features natural landscapes, such as parks and beaches, which serve as a reminder of the connection to the physical world and the importance of human interaction.

## Characters

Theodore is a lonely writer who is going through a difficult divorce. Samantha is an AI that has near-unlimited intelligence, as well as being able to feel feelings.

## Themes

Artificial intelligence, love, relationships, the nature of consciousness and the blurred line between human and machine.

## Message

Rather than presenting a clear message, the movie raises several questions about the future of society.
